

# *Safety Alert*

## **Wear Personal Protective Equipment To Guard Against Harmful Dusts**

The clean up of vehicle rims and components using pneumatic grinding and descaling tools (needle guns) creates dust.

**If inhaled this dust may cause respiratory irritation and even illness.**

To prevent any exposure, please make sure you always:

1. Obtain the correct PPE and ensure it is always worn correctly throughout the task.
2. When using Needle Guns / Grinding Discs or Buffing Pads, ensure the residue of the cleaning materials is not harmful i.e. check the MSDS of the needles / discs / pads.
3. Carefully scoop up all descaling dusts and grit and dispose of properly, then **use water not compressed air** to clean your work area.

These simple steps are for your safety while cleaning vehicle rims and components.
